Subject: Webinar on "Developments in Environment Management in Fertilizer Plants", 29th September 2020

Dear Sir,

Fertilizer industry has always laid emphasis on preserving environment. The environment performance of fertilizer plants is testimony to the same. This has been possible due to adoption of sophisticated technology for abatement of pollutants at the design stage itself. The existing plants have also incorporated better equipment and processes and installed pollution control equipment to further improve the environmental efficiency. Fertilizer industry has gone beyond the regulatory compliance and adopted a number of voluntary initiatives to improve the environmental performance of the plant. There have been continuous developments in the area of environment regulations, monitoring and control. It is important that these developments are disseminated within the industry. In the current pandemic situation, virtual meetings and webinars are the medium for updation of knowledge and exchange of information.

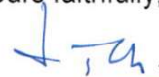

In view of this, FAI is organizing a Webinar on "Developments in Environment Management in Fertilizer Plants" on September 29, 2020 during 1000-1300 hrs to disseminate information on key issues on environmental management in ammonia, urea, acid and complex fertilizer plants. The presentation will be made by experts with extensive experience in fertilizer industry. Senior officials from the Central Pollution Control Board and MOEFCC are also likely to join the Webinar. The Webinar will include the following topics:

- i. Developments in Environment Regulations for Fertilizer Industry
- ii. Water Management in Fertilizer Plants
- iii. Environment Management in Nitrogenous and Complex Fertilizer Plants

We hope that you will like to avail the opportunity by nominating concerned officers from the areas of process and environment. The registration fee for attending the Webinar is Rs. 2500/- (Rs. two thousand five hundred only) plus GST per participant from a member company. The last date for registration is 22nd September 2020. The nominations for the Webinar may be sent to Dr. S. Nand, Deputy Director General, FAI New Delhi, email: tech@faidelhi.org in the attached registration form. The link to join the Webinar will be provided to the email id of registered participant in advance.

Thanking you,

Yours faithfully,

(Satish Chander)
