

## FAI Sponsored Special Session on Innovative Fertiliser Formulations at ISSS-Convention

For the first time in the history of Indian Society of Soil Science, a special Session on Innovative fertiliser formulations was organised on 18 November 2025. The session was chaired by DG, FAI. In his opening remarks, DG, FAI underlined that fertiliser industry has been continuously thriving to produce/procure better fertiliser formulations after due testing and undertaking research trials for use by the farmers to enhance fertiliser use efficiency for sustainable agriculture and to minimize environmental footprints. He then gave an overview of Nano-based fertilisers; bio-fertilisers having better shelf-life; next-generation fertiliser innovative products; innovative micronutrient fertilisers; innovative fertiliser formulations; etc. Five presentations one each from (i) IFFCO, (ii) Coromandel International, (iii) Mosaic India Ltd., (iv) Zuari FarmHUB, and (v) IZA, were made by the experts from the fertiliser sector. DG, FAI summarised the deliberations for the benefits of the delegates. Mr. Y.V.N Murthy acted as rapporteur of the session.
