

FAI Annual Seminar 2026

26-28 November 2026, Hotel Pullman & Novotel, Aerocity, New Delhi

Securing Fertiliser Future for Sustainable Agriculture

The Fertiliser Association of India

□ From the DG's Desk

Dear Friends,

India has solidified its position as the fastest-growing economy in the world and its economy enters in 2026-27 on a strong footing. Agriculture is the vital sector of the economy and use of fertilisers plays an important role in agricultural development. Therefore, securing future of fertiliser is crucial to feed the ever-growing population of the world and India is no exception. Continuation of geo-political tensions in West Asia has disrupted the supply of global energy, fertilisers/raw materials/intermediates/feedstocks, etc. Proactive strategies of the Government of India in tandem with fertiliser industry have been helping to mitigate the adverse effect of major disruptions.

India navigates an increasing complex global fertiliser landscape. Reducing import dependency has become the top priority. The need is to expand domestic production, diversification of resources, adopt green technology, strengthen soil health by integrated nutrient management, enhance operational efficiency at every stage of supply-chain to ensure fertiliser, food and nutritional security on sustainable basis. Therefore, future lies in synergy of conventional and innovative fertilisers for sustainable agriculture. Further, south-west-monsoon may be disrupted due to severity of El-Niño. Government of India in collaboration with State Governments have been formulating contingency plan to mitigate the adverse effect of El-Niño.

This year's FAI Seminar is 62nd in the series with the theme of **Securing Fertiliser Future for Sustainable Agriculture**. It will provide an opportunity to take stock of the areas related to production, logistics, marketing and innovative fertiliser products and extension services to ensure food security. Further, appropriate policy interventions for nutrient security will also be deliberated.

The Seminar is scheduled during **26-28 November 2026** at Hotel Pullman & Novotel, Aerocity, New Delhi, India. As in the past, we are confident that all concerned will respond with full enthusiasm by sponsoring large number of delegates to make this unique fertiliser sector event successful and meaningful.

With warm regards,

Dr. Suresh Kumar Chaudhari
Director General

□ Securing Fertiliser Future for Sustainable Agriculture

Fertilisers are indispensable for agricultural growth, because they are plant food and meet the nutrient demand of the crop. The testimony of fact is that due to increased use of fertilisers from mere 65,600 MT in 1951-52 to 33.5 million MT in 2025-26, foodgrain production showed an increase from 52 million MT to 376 million MT during the period. There has been momentum growth in production of horticultural, cash and oilseed crops also. The pace of growth has to be kept up to meet the demand of burgeoning population in terms of food, feed, fuel and fibre. Therefore, growth in fertiliser is crucial to sustain growth in agriculture.

Many challenges in agriculture and fertiliser sectors are cropping up. In agriculture, these comprise of climate change; depletion of natural and water resources; fragmentation of land holdings; decline in soil health, soil organic carbon and crop response to fertiliser application due to imbalance in use; etc. In the case of fertilisers, India is import dependent to a great extent either in the form of finish products or raw materials/intermediates/feedstock being used in production of fertilisers. Geo-political conflicts hamper the supply of these commodities. Meticulous planning is in place to make fertilisers available to farmers. Realising the need to reduce import dependency, the fertiliser industry is promoting alternate fertilisers such as organic-, bio-, nano- fertilisers and other innovative fertiliser products along with traditional fertilisers to improve soil health and minimize environmental footprints. Advance technologies are also being given impetus. Conducive policy will go a long way to promote better use of fertilisers among the farmers. For long-term energy security, various initiatives by the Government are underway to promote coal gasification, green hydrogen and green ammonia. Existing plants are further exploring technology to enhance energy efficiency, improve reliability and integrate renewable energy into production process.

Unique feature of this year Seminar will be Panel Discussions followed by every technical session that precisely elaborate the practical aspects leading to tangible outcome.

It is in this context of above discussion, the experiences of the experts from India and abroad in the FAI Annual Seminar 2026 will be beneficial to all the delegates, to derive the blueprints on topical theme of **Securing Fertiliser Future for Sustainable Agriculture.**

□ About FAI

The Fertiliser Association of India is a non-profit and non-trading organization representing mainly the fertiliser manufacturers, distributors, importers, equipment manufacturers, research institutes and suppliers of inputs. The Association was established in 1955 with the objective of bringing together all concerned with the production, marketing and use of fertilisers with a view to:

- Assist the industry in improving its operational efficiency;
- Find solutions to the problems faced by the fertiliser industry and agriculture;
- Promote balanced and efficient use of fertilisers;
- Encourage use of more and better plant foods and
- Promote consideration and discussion of all issues that contribute to sound agricultural practices.

FAI is represented on important government committees/panels related to fertiliser and agriculture. The Association cooperates actively with the Government of India on all issues related to fertiliser sector and acts as an interface between the Industry and the Government by maintaining close contacts and rapport.

The Indian fertiliser industry is highly complex and technology driven consisting of plants with varying capacity, technology, vintage and product range. With nearly 700 members comprising Active, Associate, Overseas Associate and Technical and Professional, FAI provides the necessary support for meeting the challenges facing the industry.

Location

□ Program

Thursday 26 November 2026	0930-1700 hrs. : Registration 1100-1700 hrs. : Exhibition 1430-1600 hrs. : Inauguration, Distribution of Awards and Release of FAI Publications 1600 hrs. : High Tea 1900-2200 hrs. : Cultural Program and Reception Dinner
Friday, 27 November 2026 0900-1700 hrs. : Registration 0900-1700 hrs. : Exhibition	0930-1300 hrs. SESSION I: FERTILISER POLICY FOR NUTRIENT SECURITY • <i>Atmanirbhar Bharat</i> (Self-reliant India) in Fertilisers: Progress, Prospects and Policy Needs • Policy on Urea Sector • Policy on P&K Sector • Global Development in Fertiliser Sector • Global Price Outlook for Raw Materials and Fertilisers Tea Break • Panel Discussion: Fertiliser Future Amid Geo-political Disruptions 1400-1700 hrs. SESSION II: ENSURING FOOD SECURITY • Role of Fertilisers for Sustainable Agriculture: Global Scenario • Innovative Fertiliser Products for Nutritional Security • Role of Agriculture Extension for Ensuring Food Security Tea Break • Panel Discussion: Sustainable Pathways for Ensuring Food Security
Saturday, 28 November 2026 0900-1200 hrs. : Registration 0900-1700 hrs. : Exhibition	0900-1300 hrs. SESSION III: SUSTAINABLE FERTILISER PRODUCTION • Next Generation Reforming Catalysts for an Energy Efficient Ammonia Production • Modernizing Urea Plant to Improve Efficiency • Driving Sustainability in Complex Fertiliser Plants • Technology for Generating Sulphuric Acid from Phosphogypsum Tea Break • Panel Discussion: Sustainable Pathways in Fertiliser Production 1400-1600 hrs. SESSION IV: CHANGING PARADIGM IN FERTILISER MARKETING • Securing India's Fertiliser Supply Chains in an Era of Geo-political Uncertainty • Revitalising P&K Fertiliser Marketing for Balanced Nutrient Use • Digital Technologies in Fertiliser Marketing Tea Break • Panel Discussion: Fertiliser Marketing for Efficient Last Mile Delivery 1600 hrs. : Valedictory Session

Registration

Seminar Fee

- FAI Members: ₹ 20,000 per delegate plus 18% GST
- FAI Non-members: ₹ 32,000 per delegate plus 18% GST

Seminar Fee includes

- Seminar Kit with Pre-prints of Seminar Papers
- High Tea, Cultural Program and Reception Dinner on 26 November 2026 (Thursday)
- Working lunches and pre & post lunch – tea/coffee on 27-28 November 2026 (Friday & Saturday)

Procedure of Registration & Payment

I. Online Registration

For registering online, please visit FAI website www.faidelhi.org

II. Registration Form

Nominations in the attached registration form, along with the proof of payment of registration fee should be mailed to The Fertiliser Association of India, New Delhi.

Payment Options

Payments can be made by either of the following modes:

- Bankers' cheque/demand draft payable at New Delhi in favour of The Fertiliser Association of India.
- Online via through the following link: <https://www.faidelhi.org/payment>
- Through NEFT / RTGS under intimation to FAI as per the details given in the next column:

Saving Bank A/c No. : 1484101006029
Bank Name and Address : CANARA BANK
Jit Singh Marg,
New Delhi – 110 067
Branch code : 1484
IFSC code : CNRB0001484
MICR code : 110015015
FAI - GSTIN : 07AAACT0097M1Z3
FAI - PAN No. : AAACT0097M

Payment gateway can also be used for making payment.

Duly filled registration form should be sent to:

Secretary
The Fertiliser Association of India
FAI House, 10 Shaheed Jit Singh Marg
New Delhi – 110067
Tel: +91-11- 46005233/46005235/46005236
Email: secy@faidelhi.org; acctt@faidelhi.org

On the Spot Registration

It can be done by payment of Cash or Demand Draft or Credit Card only at the venue of the Seminar.

Change in Names

Change in names of delegates can be made up to 13 November 2026. Only the names of delegates registered up to this date will appear in the delegates list.

Cancellation

Cancellation of registration can be made only up to 13 November 2026. For cancellation beyond this date, 50% of the registration fee will be refunded. For this, refund requests received up to first week of January 2027 will be entertained.

□ Sponsorship Opportunity

Sponsorship can be availed on priority payment basis. For the same, the sponsors can contact Secretary, FAI at secy@faidelhi.org.

□ Exhibition

For display of the literature, products and services during 26-28 November 2026, stall(s) (3 m x 2 m) would be available.

The charge for each stall is as under:

FAI Member companies	Non-member companies
₹ 2,24,000 plus 18% GST	₹ 2,52,000 plus 18% GST

Stall(s) will be made available on all the three days of the seminar. Two persons will be allowed to represent each stall and they will be extended all facilities as regular delegates. Since the stalls are limited in number, the same will be booked on first come first serve basis with payment. The payment can also be made as per payment options given on previous page. An exhibitor cannot book more than 2 stalls. Bookings of stalls will be stopped once the space is fully occupied.

For booking and more information:

Email : pr@faidelhi.org Tel : +91-11-46005210

Any modification or alteration in the design of the stall(s) will not be permitted.

Address and Contact Details of Hotel

Hotel Pullman

Asset No 02 GMR Hospitality
District IGI Airport
New Delhi, 110037, INDIA
Telephone: (+91)1146080808
Email: H7559-re@accor.com

Location

For reservation of room, please click on the link given in our FAI website under Seminar information.

Mobile App

FAI will provide on-line mobile App facility to the registered delegates of FAI Annual Seminar 2026. After registration and confirmation, an email containing a link to download the App and a unique login/password will be sent to the delegates. On installation of the App, the registered delegate will be in a position to get the information on program schedules, delegate lists, exhibitors, presenters and places of interest amongst many other useful features.
